

# ERGONOMIC SOLUTIONS

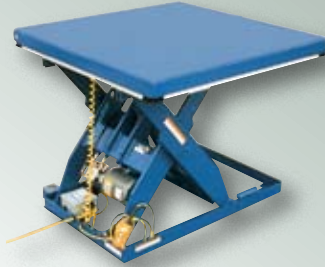

## LIFT TABLES

Electric Hydraulic Scissor Lift Tables are designed to elevate materials to an ergonomic working height. Reduce operator bending and fatigue while increasing productivity.

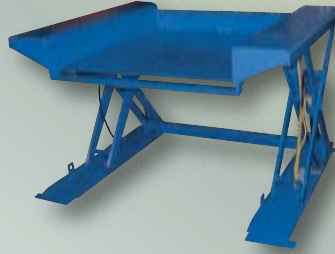

- Electric toe guards standard
- Adjustable upward travel limit switch standard
- Internal emergency safety brass hydraulic velocity fuse included

*Scissor Lift*  
Industry best design

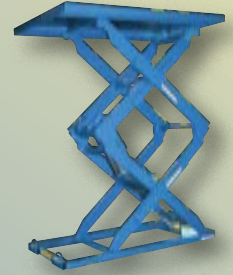

**EHLT-3060-3-43**

*Ground Scissor Lift*  
Ideal for pallet truck access

**EHLTG-4450-2-36**

*Double Scissor Lift*  
For higher lift heights

**EHLTD-4848-2-70**

## TILTERS

Designed to position containers within easy reach of assembly line workers and machine operators. Reduce fatigue by minimizing repetitive bending and stretching while increasing productivity.

- Push button hand control
- 2HP motor with 3 phase power standard

*Stationary Container Tilter*

**EM1-200-4848-4**

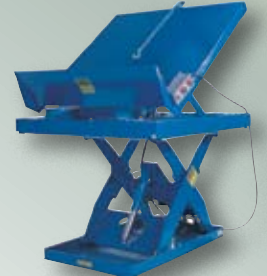

*Portable Container Tilter*  
DC Powered

**TM-40-DC**

*Lift & Tilt Scissor Table*  
Maximize ergonomic advantage

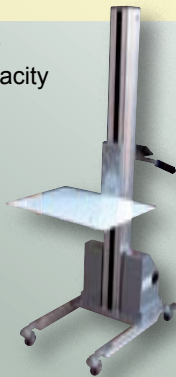

**EHLTT-4848-2-47**

## DC POWERED STACKERS

Quiet, lightweight units position loads quickly with just the push of a button. Ideal for commercial and industrial applications.

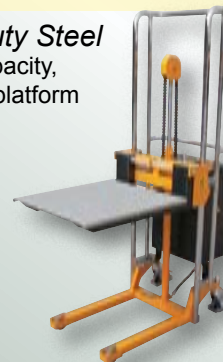

- Battery operated lift
- Built-in battery charger
- Casters allow for easy portability

*Aluminum*  
175 lbs. capacity

**PEL-100-A**

*Heavy-Duty Steel*  
880 lbs. capacity,  
removable platform

**HYD-10-DC**

*Steel*  
400 lbs. capacity

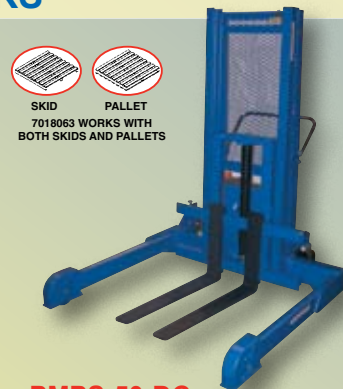

**PEL-400-57**

## PALLET & SKID LIFTERS

Designed to be used with pallets or skids when a fork truck is not available. Lifts materials to a comfortable working height. Reduces operator bending, stretching and reaching for materials which often leads to fatigue.

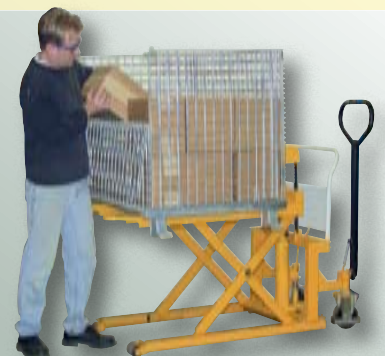

- Ergonomic solutions for increased productivity and better user comfort

**PMPS-50-DC**

**HIPM-2748-DC**

**TAL-260-HD**

## PORTABLE MATERIAL LIFTS

Lift and transport loads from delivery trucks to docks, or use to inventory items in storage systems. Easy to operate, lifts are available in steel or aluminum construction. Two rollers are located on the handle to ease loading into delivery trucks. The platform lifts approximately 1" per winch rotation or foot pump stroke.

### Steel/Aluminum

- Winch operation
- Forks 4" x 1¼" thick
- Overall fork size 20½"W x 22"L
- Forks can be inverted for higher lifts
- 500 lbs. capacity

**A-LIFT-R**

### Aluminum

- Winch operation
- Lowered height 6¼"
- Floor lock included
- 400 lbs. capacity

**ALLW-2420-4SFL**

### Steel

- Winch operation
- Low profile design
- Lowered height 1/4"
- 2" high side lips
- 2" semi steel front wheels
- 500 lbs. capacity

**LLPW-500-FW**

## LIFTING CARTS

These carts provide unparalleled ergonomic support in lifting, loading, and unloading applications. Units roll smoothly on two rigid and two swivel casters and include a push handle for easy portability.

- Increase productivity
- Reduce fatigue by minimizing repetitive bending and stretching

### DC Powered Lift

Raise platform with the push of a button

**CART-23-10-DC**

### Manual Foot Pump Lift

Two-speed foot pump

**SCTAB-1000 & SCTAB-CHK-1**

### Manual Lift & Tilt

Lifts and tilts simultaneously

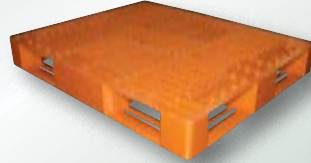

**CART-400-LT**

## PLASTIC PALLETS AND SKIDS

- Stackable for efficient storage
- Virgin polyethylene construction
- Serrated deck with holes for drainage
- Ideal for export, medical, pharmaceutical, and food applications

### Pallet

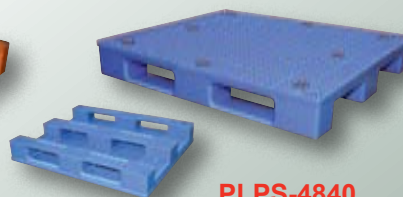

4-way entry

**PLP2-4840-ORANGE**

### Pallet / Skid

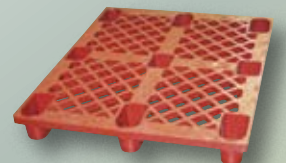

4-way entry

**PLPS-4840**

### Skid

4-way entry

**SKID-20**

## GENERAL ERGONOMIC PRODUCTS

We offer many different types of ergonomic products to help improve work efficiency. Contact your Fastenal representative for additional product information or special product requests.

### Mobile Tilting Work Table

Creates a more comfortable and productive work environment. Platform tilts 30° and travels from 31½" to 42".

**WT-2424**

### Fully Powered Electric Pallet Truck

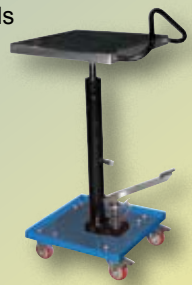

- Easy & quick operation
- 24V DC powered
- 3,000 lbs. capacity

**EPT-2547-30**

### Hydraulic Post Table

- Foot pump operation
- Platform swivels 360° for use as a turntable

**HT-02-1616A**
